# The Safest Cloud Hosting for Ecommerce

Enterprise-grade Security, Scalability,  
Performance and Automation for Global Brands

Webscale is the world's safest cloud management and hosting provider focused exclusively on ecommerce. Offering enterprise-grade security, predictive scalability and blazing-fast performance, the Webscale SaaS platform leverages automation and DevOps protocols to simplify the deployment, management and maintenance of infrastructure in multi-cloud environments, including Amazon Web Services, Google Cloud Platform, and Microsoft Azure. Webscale powers thousands of B2C, B2B, and B2E ecommerce storefronts in nine countries and seven of the Fortune 1000 businesses and has offices in Santa Clara, CA, Boulder, CO, and Bangalore, India.

## Why Webscale

### Cloud Hosting

Automated deployment, management and maintenance of your cloud infrastructure, removing the manual, error-prone aspects of a traditionally-hosted ecommerce application.

### Managed CI/CD

Automation and DevOps protocols sit at the heart of the Webscale platform, in stark contrast to traditional hosting providers that still rely on largely manual processes.

### Optimized Performance

Automation and DevOps protocols sit at the heart of the Webscale platform, in stark contrast to traditional hosting providers that still rely on largely manual processes.

### End-to-end 360° Security

The industry's most complete security stack, designed to protect merchant infrastructure and customer data from malicious threats, from traffic at the edge to the backend application.

### 100% Uptime

Automated tools ensure your infrastructure is always right-sized, scalable and ready for any volume of traffic.

### 24x7 DevSecOps Support

Automated tools ensure your infrastructure is always right-sized, scalable and ready for any volume of traffic.

## Corporate Facts

## Webscale Cloud Plans

Webscale hosting plans are segmented by visitor traffic and desired features and functionality. Unlike traditional solutions, Webscale plans are based on a highly automated SaaS platform, built from the ground up for the public cloud, and coupled with a powerful customer portal for unprecedented control and insight into website infrastructure.

Webscale's cloud plans give merchants extreme flexibility, infinite capacity, predictive scalability, and up to 75% lower costs by having a system that is always right-sized, so you only pay for what you use.

CORE	STANDARD	PRO/BUSINESS	ENTERPRISE
Affordable, fixed cost hosting, with built-in security for small ecommerce websites	Cloud hosted solution for small to medium sized ecommerce businesses with a single application.	Cloud hosted solution with real-time predictive auto-scaling and enhanced security features.	Fully customizable solution for large ecommerce businesses with multiple domains and applications.
Up to 50K visitors per month	50K - 100K visitors per month	100K - 1M visitors per month	Custom visitor count per month

## Webscale Cloud Products

Webscale's ecommerce focussed products suite allows merchants to offer customers a compelling user experience with always available, blazing fast and secure storefronts. Our products are offered as part of our hosting plans and services, and designed to empower merchants to offer a seamless user experience for their customers.

### Cloud Bot Manager

A cloud-native security solution powered by machine learning, which monitors the behavior of all bots accessing any web-based application, identifies anomalous activity, and takes the necessary action to prevent disruption.

### Cloud Image Manager

A multi-cloud SaaS solution that offers a one-stop, automated image optimization and management solution for merchants, ensuring online buyers receive the right image for their specific device, every time, and always from the cache closest to the end user.

### Cloud WAF

An application-aware cloud Web Application Firewall (WAF), addressing the pain points ecommerce businesses face with regards to the security, availability and performance of their critical web applications.

### Cloud Security Suite

A 360-degree security solution that provides the ecommerce industry's most robust protection against attacks from the frontend through web traffic, malicious code inserted into the backend, or from browsers executing scripts stealing sensitive information.

### CloudEDGE Security

Comprehensive security at the traffic edge, alongside traditional CDNs and WAFs, and on top of any third-party hosted ecommerce platform, using automation and analytics to protect web applications.

### Webscale M1 Support

A security-focused SaaS platform that allows merchants to stay patched and secured on the end-of-life Magento 1 platform, protecting them against exploits, from the point of entry to the backend infrastructure.
