The Cloud Platform for Modern Commerce

Security, Scalability, Performance and Automation for Global Brands

Webscale is the world's only cloud platform for the successful delivery of modern commerce applications. Offering enterprise-grade security, predictive scalability and blazing-fast performance, the Webscale SaaS platform leverages automation and DevOps protocols to simplify the deployment, management and maintenance of infrastructure. The platform supports omni channel use cases across a variety of ecommerce platforms and architectures, including headless, progressive web applications, self-hosted and fully hosted commerce clouds. Deployed in multi-cloud environments, including Amazon Web Services, Google Cloud Platform, and Microsoft Azure, Webscale powers Fortune 1000 brands including Dollar General, Unilever, Swarovski, Olympus, Regal Cinemas and thousands of other B2C, B2B, and B2E ecommerce storefronts across 12 countries. Webscale has offices in Santa Clara, CA, Boulder, CO, San Antonio, TX, Bangalore, India and London, UK.

Why Webscale

Cloud Delivery

Automated deployment, management and maintenance of your cloud infrastructure, removing the manual, error-prone aspects of a traditionally-hosted ecommerce application.

Managed CI/CD

Automation and DevOps protocols sit at the heart of the Webscale platform, in stark contrast to traditional hosting providers that still rely on largely manual processes.

Optimized Performance

Webscale accelerates page views through automated, end-end website performance optimizations

End-to-end 360° Security

The industry's most complete security stack, designed to protect merchant infrastructure and customer data from malicious threats, from traffic at the edge to the backend application.

100% Uptime

Automated tools ensure your infrastructure is always right-sized, scalable and ready for any volume of traffic.

24x7 DevSecOps Support

Our DevSecOps-qualified, cloud-certified experts work with you 24x7x365 to resolve any issue.

Corporate Facts

Webscale Cloud Plans

Webscale cloud delivery plans are segmented by visitor traffic and desired features and functionality. Unlike traditional solutions, Webscale plans are based on a highly automated SaaS platform, built from the ground up for the public cloud, and coupled with a powerful customer portal for unprecedented control and insight into website infrastructure.

Webscale's cloud delivery plans give merchants extreme flexibility, infinite capacity, predictive scalability, and up to 75% lower costs by having a system that is always right-sized, so you only pay for what you use.

CORE	STANDARD	PRO/BUSINESS	ENTERPRISE
Affordable, fixed cost cloud delivery, with built-in security for small ecommerce websites.	Cloud delivery solution for small to medium sized ecommerce businesses with a single application.	Cloud delivery solution with real-time predictive auto-scaling and enhanced security features.	Fully customizable solution for large ecommerce businesses with multiple domains and applications.
Up to 50K visitors per month	50K - 100K visitors per month	100K - 1M visitors per month	Custom visitor count per month

Plan Add-ons

Webscale offers a range of security, performance and CI/CD products as add-on to its cloud plans.

[Cloud Security Suite](#) | [Cloud Application Testing](#) | [Cloud Bot Manager](#) | [Cloud Image Manager](#)

Webscale CloudEDGE Products

Webscale offers a range of edge products to support any third party commerce clouds, headless or PWA deployments and on-prem applications.

Webscale CloudEDGE Security

Webscale CloudEDGE Security offers comprehensive security at the traffic edge, and can be deployed alongside traditional CDNs and WAFs, and on top of any third-party commerce clouds, headless or PWA deployments or on-premise applications.

Webscale CloudEDGE Image Manager

Webscale CloudEDGE Image Manager is a multi-cloud SaaS solution that offers a one-stop, automated image optimization and management solution for merchants. By deploying at the traffic edge, CloudEDGE Image Manager can dramatically improve Core Web Vitals scores by reducing the size of images, without any loss of visibility into your infrastructure.

Webscale CloudEDGE Bot Manager

Webscale CloudEDGE Bot Manager offers 360-degree protection against the threat of malicious bots at the edge. A cloud-native security solution, CloudEDGE Bot Manager monitors the behavior of bots accessing any web-based application, identifies anomalous activity, and takes the appropriate action. The identification of good and bad bots is automated and occurs in real-time.

CloudEDGE Application Testing

Webscale's CloudEDGE Application Testing is run as a synthetic test across any staging or cloned production site, hosted in any cloud provider or on-premise data center. The purpose of the service is to simulate end user patterns and shopping behavior on the application, at a higher scale, while measuring its behavior, responsiveness and overall performance.

Trusted by Thousands of Global Brands
